

Cowlitz County Small Quantity Generator of Hazardous Waste

Requirements and Instructions for Disposing SQG Hazardous Waste

Step 1. Qualify as a Small Quantity Generator

- The business must be a Small Quantity Generator as defined by WAC 173-303-070(8).

Step 2. Complete forms and return to Waste Control

- Complete and return the a) Registration Form and b) Waste Inventory Form for each visit. Note that MSDSs may be required. Mail, fax, or email forms to:

- Waste Control Recycling
- SQG Collection Program
- PO Box 148
- Kelso, WA 98632
- Phone: (360) 425-4302
- Fax: (360) 577-4724
- Email: roensign@wcrecycling.com

Step 3. Receive appointment

- Waste Control staff will review your paperwork, estimate your disposal cost, and contact you to schedule delivery of material. You may be required to provide additional information prior to a cost estimate or delivery. Please note that delivery is by appointment only.

Step 4. Deliver hazardous waste

- Deliver the SQG hazardous waste to Waste Control at your scheduled time in properly labeled, leak-proof and spill-proof containers.
- An invoice for waste received will be given to the person delivering the waste. We do not accept payment at time of delivery. Cowlitz County Public Works, sponsor of the SQG Hazardous Waste Collection Program, will invoice you for the disposal cost.

Important Instructions

- We do not accept explosive, reactive, biological/infectious, radioactive, or unknown material, or compressed gas cylinders.
- Materials must be in properly labeled, leak-proof and spill-proof containers.

If you have any questions or need assistance completing any forms, please contact the Waste Control Hazardous Waste Specialist at (360) 425-4302.
